

Module 3: Draft Message Retrieval

Objectives

- Install DiscordChatExporter.
- Obtain Discord token.
- Use token to download chat history.

Software Preparation

1. Go to google and type “DiscordChatExporter” and click on the first link that says “Tyrrrz/DiscordChatExporter: Exports Discord chat logs to a file”.

2. Scroll down on the website until you see the Downloads section and click **Stable release (DiscordChatExporter.zip)** in the GUI section.

	Downloads	Supported OS
GUI	<ul style="list-style-type: none"> Stable release (DiscordChatExporter.zip) CI build (DiscordChatExporter.zip) 	<ul style="list-style-type: none"> Windows 7 or higher
CLI	<ul style="list-style-type: none"> Stable release (DiscordChatExporter.CLI.zip) CI build (DiscordChatExporter.CLI.zip) Docker (tyrrrz/discordchatexporter) AUR (discord-chat-exporter-cli) 	<ul style="list-style-type: none"> Windows 7 or higher macOS 10.13 (High Sierra) or higher Linux (multiple distros)

Changelog

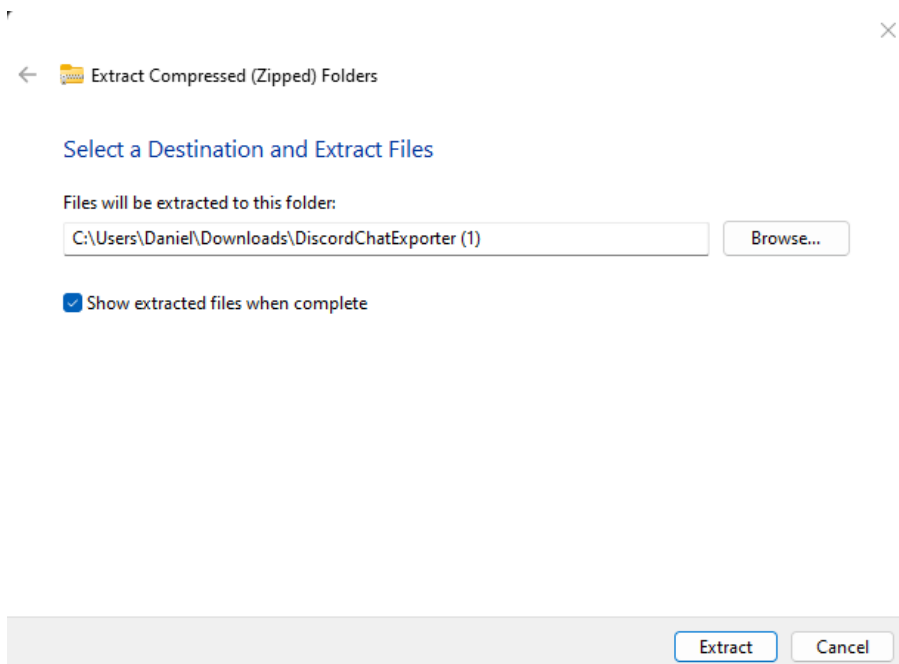

Assets 4

DiscordChatExporter.CLI.zip	1.45 MB	2 weeks ago
DiscordChatExporter.zip	4.24 MB	2 weeks ago
Source code (zip)		2 weeks ago
Source code (tar.gz)		2 weeks ago

3. Click the second link, “DiscordChatExporter.zip” and download it. Once downloaded, right click on the .zip file and a menu should pop up. Extract the file by clicking “Extract All...”

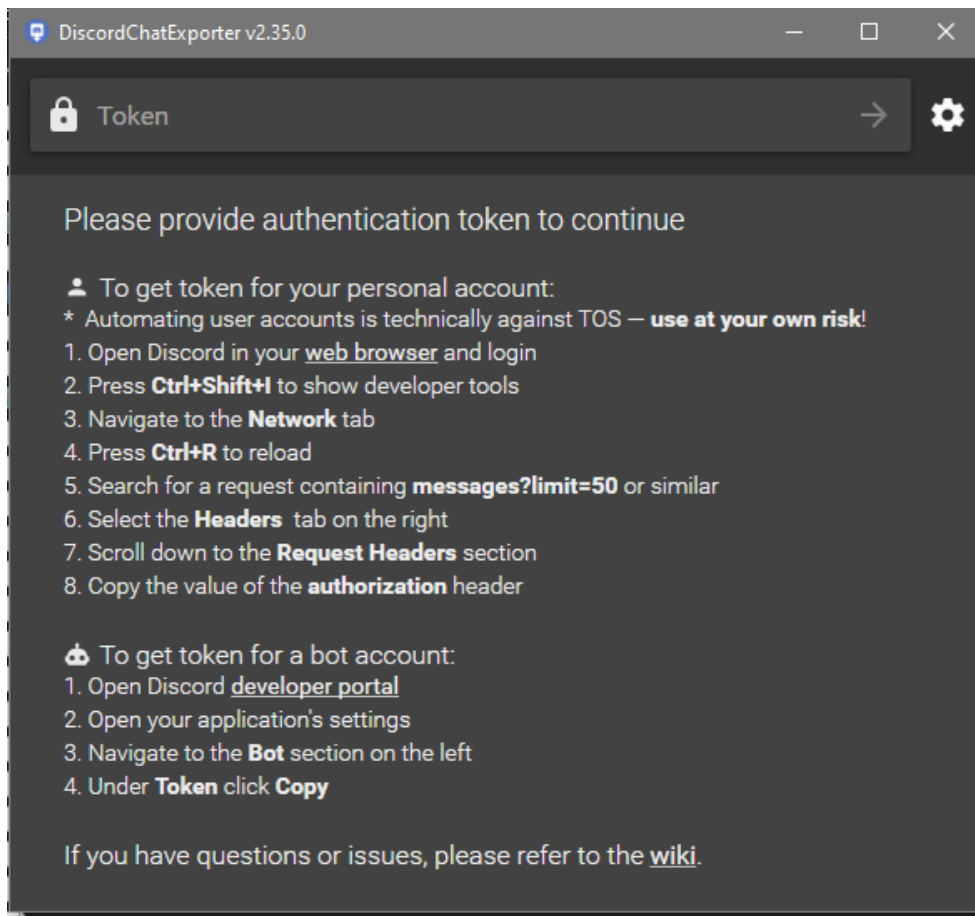

4. Choose your destination to extract the file and click Extract.

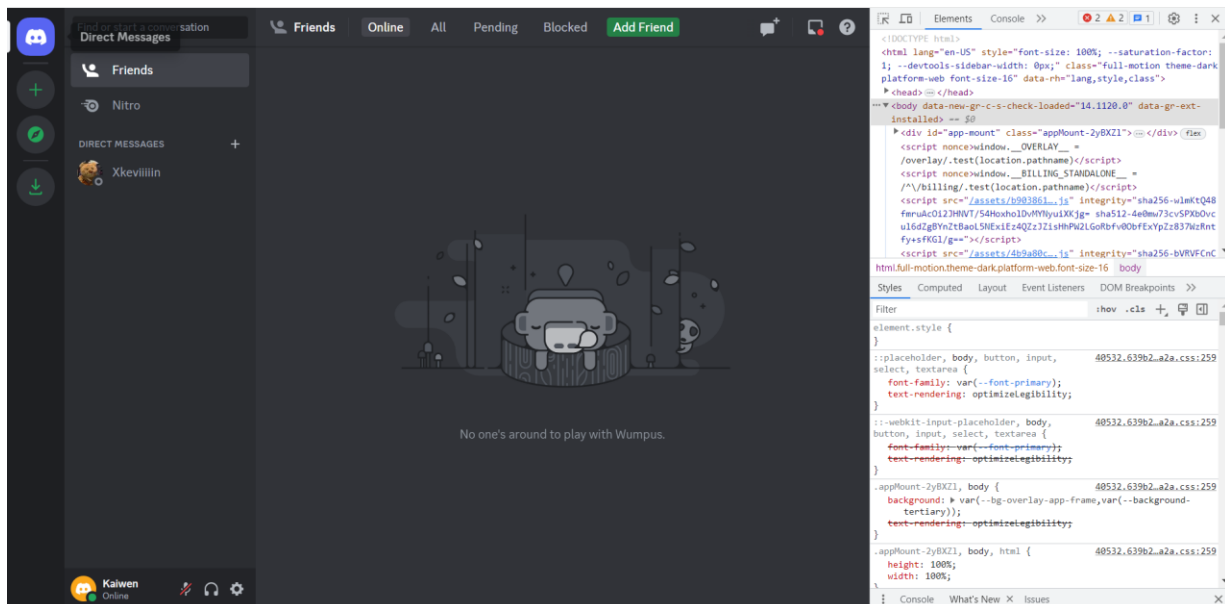

5. Once extracted, double click the new extracted folder and double click DiscordChatExplorer.exe.

Part 1. Acquire Discord Token

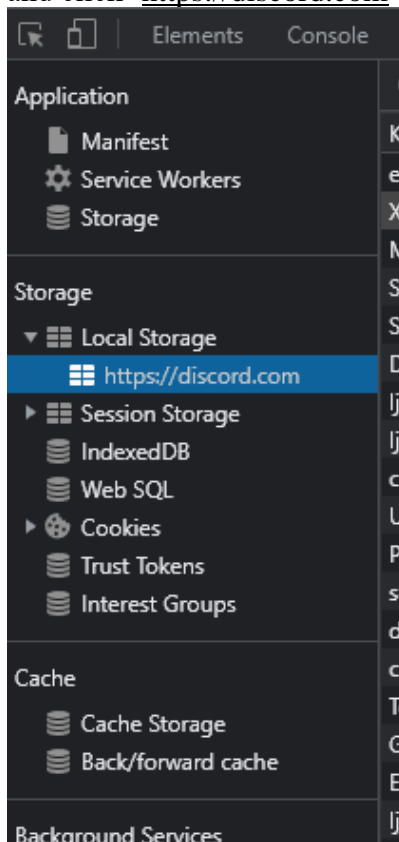

6. Open Discord in your web browser and do access the Developer Tool by pressing Ctrl+Shift+I

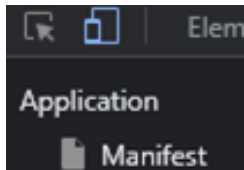

7. On the top of the Developer Tool click the two arrows pointing right next to Elements, Console, Recorder etc. on the dropdown menu select 'Application'.

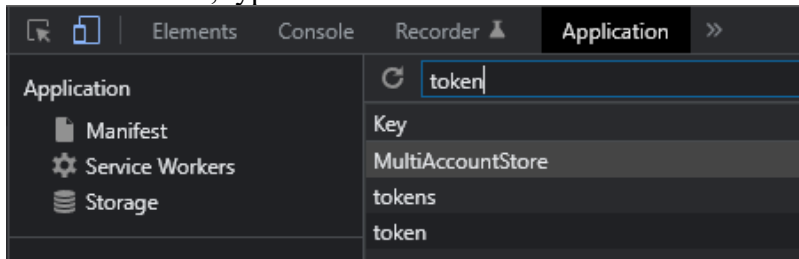

8. On left of the Application page, under Storage, click on the dropdown menu of Local Storage, and click '<https://discord.com>'

9. On the top left of the Developer Tool is a button that looks like a phone and a tablet. Click that button.

10. On the filter, type in 'token'

11. Select the key that says 'token' and copy its value onto your clipboard.

Key	Value
MultiAccountStore	{ "_state": { "users": [{ "id": "690662379758944..."
tokens	{ "690662379758944277": "NjkwNjYyMzc5..."
token	"NjkwNjYyMzc5NzU4OTQ0Mjc3.GTHXxU...."

1	"NjkwNjYyMzc5NzU4OTQ0Mjc3.GTHXxU.2N0D6nmuh_Oa3JfN5KiMSsNw1GzAdkwRTel"
---	---

Part 2. Downloading Chat History

12. Using the copied token, paste it into DiscordChatExporter. (Remember to delete the quotation marks at the beginning and end of the token. After you paste it in, hit enter).

👤 To get token for your personal account:

* Automating user accounts is technically against TOS — **use at your own risk!**

1. Open Discord in your [web browser](#) and login
2. Open any server or direct message channel
3. Press **Ctrl+Shift+I** to show developer tools
4. Navigate to the **Network** tab
5. Press **Ctrl+R** to reload
6. Switch between random channels to trigger network requests
7. Search for a request containing **messages?limit=50** or similar
8. Select the **Headers** tab on the right
9. Scroll down to the **Request Headers** section
10. Copy the value of the **authorization** header

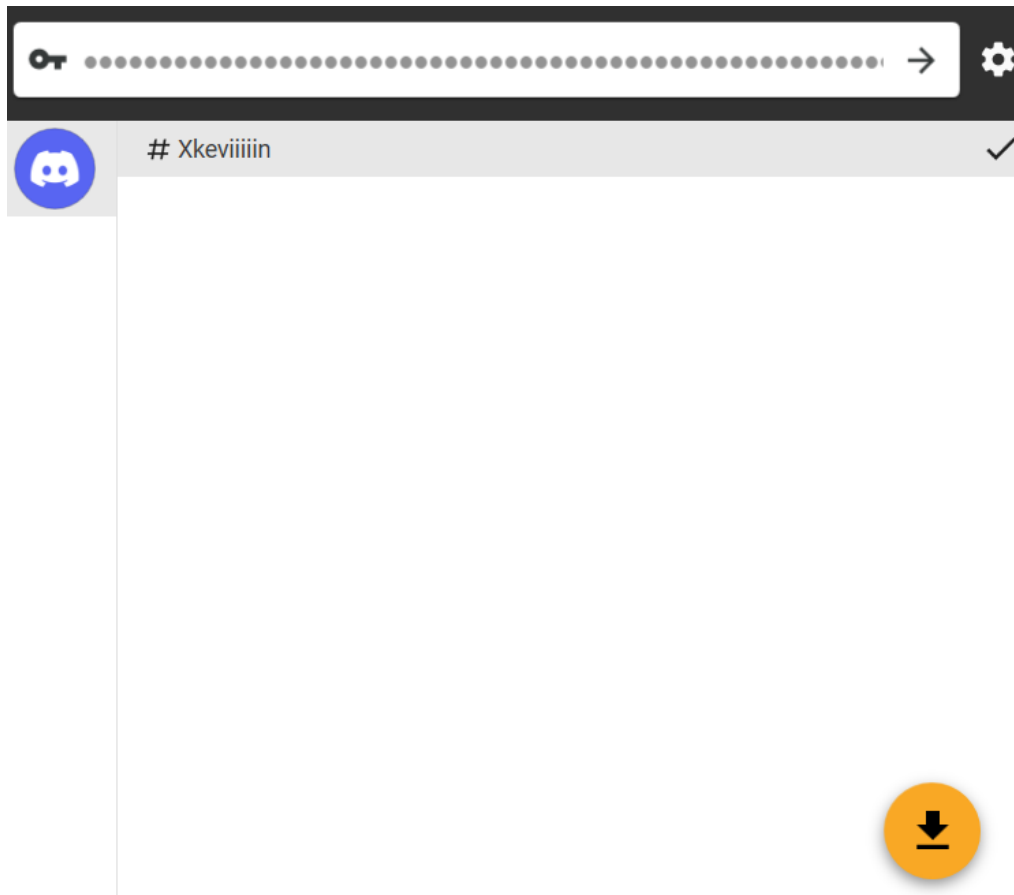

🤖 To get token for a bot account:

1. Open Discord [developer portal](#)
 2. Open your application's settings
 3. Navigate to the **Bot** section on the left
 4. Under **Token** click **Copy**
- * Your bot needs to have **Message Content Intent** enabled to read messages

If you have questions or issues, please refer to the [documentation](#)

13. Select the chat that you would like to save and click it. An orange-yellow download button should appear on the bottom right of the window.

14. Click the orange-yellow download button and select the format you would like to download the chat in. After selecting the format, click export.

15. Select where you would like to save the chat and click save.
16. Open up the file you saved, the format is shown on the screenshot.
